

National Cavy Club Statement No.3: COVID-19 (Coronavirus)

Given the various Government announcements of the last week, we are sure it will come as no surprise to you that the National Cavy Club is extending its precautionary measures regarding COVID-19. It is now recommended that cavy shows and meetings in the UK be cancelled up to the end of June 2020.

The situation will be reviewed in mid May, in order that timely decisions and plans can be made regarding shows later in the summer.

As previously, the National Cavy Club will be rescinding show support for all its shows during the periods noted above; we will of course continue to support our affiliated clubs and members in any ways we can.

We know this is a worrying and challenging time for everyone, and we all look forward to once again being able to enjoy our hobby.

National Cavy Club - 20th March 2020
